

I benefit greatly from listening to XM Satellite Radio and especially its traffic and weather channels. They provide a greater service than what I can receive on my local radio stations in pure digital quality. I have access to 100+ channels of music, talk, and entertainment that I can not receive on the AM or FM bands. I am a paying subscriber for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. Please reject the NAB's petition 04-160 and support XM Radio's ability to provide the kind of programming that I demand and deserve.
